

## WCNHCP June 2016 Newsletter

June 2016

WCNHCP hosted the 2016 Nursing Education Summit at Casper College May 16<sup>th</sup> and 17<sup>th</sup>.

Dr. Deborah Trautman, PhD, RN, FAAN, President and CEO of the American Association of Colleges of Nursing, came to Casper College to give the keynote speech for the 2016 Nursing Education Summit. Approximately 75 nurses from around the state came to hear Dr. Trautman talk about "Answering the Call for Nursing Leadership." The Summit focused on Leadership and Diversity so Dr. Trautman talk set the tone for the rest of the Nursing Education Summit.

The WCNHCP Diversity Task Force presented a draft report on diversity in nursing. Students in k-12 schools and schools of nursing are more diverse than the nursing workforce. The report also outline recommendations for the state to continue to increase the diversity of nursing students. You can download the [Diversity in Nursing: Wyoming's Solutions](#) draft report and provide any feedback you see is needed to the WCNHCP at the address at the bottom of the newsletter.

The Revolutionizing Nursing Education in Wyoming (ReNEW) Leadership Task Force presented on leadership across the curriculum. The Leadership Task Force presented on the core attributes of leadership. This included leadership objectives and threading leadership across the nursing curriculum. An example was given as to how this might look once placed inside the curriculum.

Other presentation were given on concept based clinical education. Each school of nursing presented on how they are implementing concept based clinicals into their curriculum. These presentation were a great way to help share different ideas and to give others examples of what concept based clinicals can look like in different settings. View the presentation from the 2016 Nursing Education Summit [here](#).

Overall the evaluation of the Nursing Education Summit was positive. Even with positive evaluations the ReNEW Professional Development Committee is always looking at making the Nursing Education Summit better in years to come. The Nursing Education Summit is held in May soon after all of the schools of nursing hold their graduation ceremonies.

### The WCNHCP is hosting a retreat in June.

The WCNHCP periodically hold retreats to look at projects currently underway along with projects that have been completed. The retreat will also help to guide the WCNHCP in future projects and priorities for the years to come. The retreat is a way for the WCNHCP Advisory Board to get together to ensure the WCNHCP is staying true to our mission and vision for the future of nursing in Wyoming. The retreat will be held on June 9th at Casper College. If you are interested in attending please contact Matt Sholty at [msholty@uwyo.edu](mailto:msholty@uwyo.edu) or call 307-766-6715. All of the WCNHCP meeting are open to everyone but a headcount is necessary as lunch is provided.

### Continuing Education: A Bridge to Excellence in Critical Care Nursing

A professional nurse engages in life-long learning that will influence practice and ultimately impact the quality of care that a patient receives. The technical skills and critical thinking acumen demonstrated by the critical care nurse at the bedside are not enough to sustain an evidence-based practice environment. Nurses need to cultivate and internalize a passion for learning throughout their careers. They need to adopt a healthy work environment that gives merit to continuing education (CE). This article will discuss perspectives in CE for the nurse. Research findings to illustrate the significance of professional development will be presented. The integration of passion for learning that provides a foundation for excellence in practice will be addressed. Finally, a variety of strategies that can be used to participate in and develop interactive CE programs to meet the needs of savvy professional nurse consumers will be explored.

### Teaching Adults: What Every Trainer Needs to Know About Adult Learning Styles

Teaching adults isn't like teaching children. Traditionally, children are viewed as empty vessels into which teachers can pour knowledge. Parents and teachers try to control the information that goes into the classroom to determine the quality of learning that comes out. Trainers cannot control adults this way.

Children have little real world experience upon which to base their learning. Adults have a great deal of accumulated experience that can enrich their education. Adults can compare and contrast new knowledge against past learning. What we learn in childhood forms the foundation of what we learn as adults. Our life experiences can add to that, thus creating a substantial reservoir of information. Developing insight into how adults learn helps trainers become more successful.

The WCNHCP is the nursing workforce center and the Action Coalition for the State of Wyoming. The mission of the center is to strengthen the nursing workforce through on-going collaboration, communication, and consensus building to meet the health needs of the people of Wyoming.

#### Preceptor Orientation

Preceptor orientation modules are available on the WCNHCP website: [wynursing.org](http://wynursing.org). The modules can be viewed together or individually. Moreover, you can return to the modules whenever you'd like when you need more information or need a little assistance.
